Portfolio

Full Stack Developer with experience in building scalable web applications using React, TypeScript, Redux, Node.js, and modern UI technologies. Passionate about Front-end Engineering, user experience, and developing high-performance web interfaces.

Education

- 2023: B.Tech. in Computer Science and Engineering, Jain (Deemed-To-Be University), Bangalore

Areas of Expertise

Front-end Development

Full Stack Development

ReactJS Development

State Management (Redux)

API Integration

Responsive Web Design

UI/UX Development

Performance Optimization

Agile Development

Unit Testing

Requirements Gathering

Cross-Functional Coordination

Technical Skills

- Languages:** JavaScript, TypeScript, Python, HTML5, CSS3
- Front-end:** ReactJS, Redux Toolkit, Material UI (MUI)
- Back-end & Databases:** Node.js, MongoDB, MySQL
- Tools & Platforms:** AWS, Git, Vitest, Figma, DevExpress, ASP.NET WebForms

Certifications

- React Certification
- JavaScript Certification
- Node.js Certification

Soft Skills

- Communication
- Collaboration
- Analytical Thinking
- Team Leadership

Personal Details

Date of Birth: 17th November 2001

Languages Known: English, Kannada, Telugu, Hindi

Address: Bangalore - India

Profile Summary

- Front-end Developer with nearly 3 years of experience in front-end and full stack development across software engineering domains including UI/UX design, API integration, and responsive web applications.
- Currently working as a **Full Stack Developer at Mercedes-Benz Research & Development India**, contributing to the design, development, and deployment of user-centric web applications.
- Exhibited strong proficiency in **ReactJS, Redux, TypeScript, JavaScript**, and modern UI/UX principles for building high-performance web interfaces.
- Successfully contributed to **deployment of critical web applications** improving user engagement and operational efficiency through optimized development practices.
- Experienced in collaborating with cross-functional teams to **integrate front-end interfaces with back-end services**, ensuring seamless API-driven architectures.
- Engaged in Agile-driven environments with strong focus on **sprint planning, retrospectives, performance optimization**, and continuous learning in cloud and DevOps practices.

Work Experience

UI/UX Developer | Mercedes-Benz Research & Development India, Bangalore | Aug 2023 - Present

Responsibilities:

Project: XDHUB | **Tech Stack:** ReactJS, TypeScript, Redux Toolkit, Material UI (MUI), NodeJS, Vitest

- Developed reusable React components for dashboards, forms, tables, and dialog interfaces to support scalable and maintainable UI development.
- Implemented Redux Toolkit for centralized state management and integrated REST APIs with loading and error-handling mechanisms.
- Developed pagination, filtering, and search functionalities to enhance data accessibility and user experience.
- Optimized application performance using memoization techniques and implemented protected routes with role-based access controls.
- Contributed to defect resolution, modernization initiatives, testing, and validation activities to ensure application reliability and quality.

Project: DPAD | **Tech Stack:** C#, ASP.NET WebForms, DevExpress, MySQL

- Worked on enhancement requests and assigned development tickets across multiple application modules.
- Resolved application defects and implemented required changes to support application stability and business requirements.
- Performed debugging, testing, & validation activities prior to deployment to ensure solution quality.
- Contributed to cloud migration initiatives involving the transition of applications from on-premise infrastructure.

Projects Undertaken

- Admin Dashboard** - Developed a dynamic admin dashboard using React, Redux, React Router DOM, MUI, and Redux Thunk with focus on state management, navigation, and asynchronous operations.
- NetflixGPT** - Built a movie recommendation application integrating GPT-3.5 Turbo with authentication, form validation, multilingual support, and Redux Toolkit for state management.
- Portfolio Website** - Created a responsive personal portfolio website using React, HTML, CSS, and JavaScript to showcase projects, technical skills, and interactive UI components.
- Smart HR Interview & Hiring Portal** - Developed an interview and hiring platform using React, React Router, Redux Toolkit, Firebase Authentication, and form validation for candidate management and hiring workflow.
- Namaste Food** - Developed a responsive food ordering application using React, API integration, search and filtering functionality, and dynamic rendering for real-time restaurant data.
